## POLICE TO ROUND UP "SLACKERS" IN OAKLAND

Official Order Arrives to Jail All Men of Draft Age Refusing to Sign Up; Will Prosecute

NAMES TO BE POSTED: ROLLS ARE GONE OVER

Exemption Plan Is Sent Before President; to Decide on the Many Classes in Selections

Slackers—men whose names are not on the "honor roll" of registration as compiled by City Clerk L. W. Cummings today, will face arrest through the police department tomorrow, advises having been received from Provost General Crowder in Washington that the period of extenuation has passed and that with the publication of the lists in the different precincts those of military age whose names do not appear shall be taken into custody and turned over to the Federal authorities for prosecution.

Lists of the men between the ages of 21 and 31 years who have already registered under the provisions of the draft act, as above posted in the 11 precincts of the city, under the direction of City Clerk Cummings. The police department is handling the case and each division of the department holds a certified copy. The lists are being posted in the immediate vicinity of the registration place as maintained on June 5.

This "honor roll" is to serve as a check upon the young men of the respective precincts who have not yet registered.

The list contains approximately 17,300 names. It is being constantly added to and while the lists as posted in the different precincts may not contain the names of those who register after today, the files with the city clerk and the police department will be kept complete to show every name registered.

### TO CONSIDER EXEMPTIONS.

BY UNITED PRESS.  
LEASED WIRE TO TRIBUNE.

WASHINGTON, June 11.—The first actual step toward formation of boards which will determine exemption from service in the new national armies raised by draft was taken today when a plan for exemption of those physically unfit was submitted to President Wilson by a special board of lawyers, jurists and military authorities.

An attempt to inject politics into the selection of members of the conscription exemption boards is on foot in Congress.

From indications today, however, their efforts will come to naught. In official quarters it is realized that any attempt of politics would give the whole selective system a "black eye" and that the people would not tolerate it.

More than a score of Senators and Congressmen are maneuvering to get "their men" picked for the important places on the boards that select the men who will—and those who won't—serve in the new armies.

Control of one of the members of the board would be a powerful political weapon.

In trying to get a line on the probable personnel and the method of selecting the boards, many Congressmen are besieging the war department with "nominations" and "suggestions."

Although the exemption regulations are still in the formative stage, it is known that President Wilson himself will pass upon the members of the appellate boards or exemption boards of appeal. Only men of the highest standing in each community will be picked for these vital positions.

Such men as college heads, prominent lawyers and men high in civil life will be given preference. Each federal or medical district will have one appellate board to review the finding of the local board, pass upon appeals and hold original jurisdiction in claims for occupational exemptions.

States that have furnished more than their share of men for army or National Guard are not to be penalized for their patriotism when men are drafted for the army.

The plan provides that each local exemption board will have as one member a physician who will give the first test. When he rejects a man, the other board members will summon another physician, who will make the final decision. If the decisions are the same the man is declared unfit.

The regular physician member of the exemption board will probably be the county or city surgeon, according to the plan.

Although it was definitely stated there will be no wholesale class exemptions, most of the regulations are yet to be settled upon.

## BANKS UPHELD

WASHINGTON, June 11.—In the first case involving the federal reserve act the Supreme Court today upheld as constitutional the law's clause authorizing national banks to act as trustees, executors, administrators and registrars of stocks and bonds.

## Rena Mooney's Bomb Plot Trial Begun

## Murder of Oakland Woman Is Charge

Prosecution Says It Will Prove Purchase of Dynamite

TRIBUNE BUREAU  
635 MARKET ST.

SAN FRANCISCO, June 11.—With the reading of the indictment accusing Mrs. Rena Mooney of the murder of Mrs. Myrtle Irene Van Loo of Oakland, which resulted as a result of the preparedness parade bomb explosion, trial, which will be watched with interest throughout the United States, was commenced at 10:05 o'clock this morning before Superior Judge Emmet Seawell.

Immediately thereafter Assistant District Attorney Louis Feltall commenced his opening statement, which lasted until the noon adjournment.

That the prosecution is to prove by new witnesses that Mrs. Mooney on July 11, 1916, purchased twenty pounds of nitre was one of Ferrari's promises. He said he would have in court a teamster who brought the explosive to Mrs. Mooney after they had arrived here on a freighter from Honolulu.

Throughout the speech of Ferrari Mrs. Mooney listened with marked attention and several times jotted down notes on a pad of paper.

Ferrari said:

"As the representative and the mouthpiece of the state, it now becomes my duty to outline to you the testimony which the prosecution will produce in this case and upon which they will ask for a verdict of murder in the first degree against this defendant."

"The testimony which we are about to produce in this case we confidently hope to establish the truth to a moral certainty and beyond all reasonable doubt that this woman is guilty as charged."

### TELLS OF BOMB HORROR.

Ferrari then went on tell of the formation of the preparedness day parade, of the placing of a suitcase at Steuart and Market streets which apparently exploded at 2:15 o'clock and hurled death and injury in its wake. He described the bomb as being made from dynamite and the doors were closed to prevent further entrance of spectators. Outside the courtroom three policemen stood on guard to keep order.

At the noon adjournment Judge Seawell ordered the jury locked up for the remainder of the trial. He said this was an important murder case watched carefully by the public and he deemed that all sicles would be protected with the locking up of the jury. Deputy Sheriffs Tierney and Kelly were told to look after the thirteen men and see that they were given plenty of opportunity to see and hear. The judge said the jury would be allowed to read the newspapers but that all mention of the Mooney trial would be cut out.

"WE SHALL THEREUPON SHOW," continued the prosecutor, "the connection that the culprits had with the murderer of Mrs. Van Loo and how she encouraged, abetted and assisted in the commission of this premeditated murder."

"I will present two lines of evidence. We shall show her direct connection—her direct aiding, abetting and encouraging in the commission—and we will, secondly, show that a conspiracy existed between this defendant, her husband, Thomas J. Mooney; Warren K. Ellingsen, Israel Weinberg, and Edward Nolan."

"We will also show that on July 11, 1916, eleven days before this explosion, Mrs. Mooney and Herman Mooney purchased and had delivered twenty pounds of nitre."

Ferrari went on to explain that these defendants had conspired to stop the military procession by the explosion of a bomb, and thereby stop for once and all any propaganda to

the world-wide interest of labor in the trials was shown on April 23 last when a group of radicals in Petrograd made a public demonstration on the Nevsky Prospect against the reported hanging of Mooney. San Francisco has so long been noted as an

stronghold of union labor that an

attempt to inject politics into the selection of members of the conscription exemption boards is on foot in Congress.

From indications today, however, their efforts will come to naught. In official quarters it is realized that any attempt of politics would give the whole selective system a "black eye" and that the people would not tolerate it.

More than a score of Senators and Congressmen are maneuvering to get "their men" picked for the important places on the boards that select the men who will—and those who won't—serve in the new armies.

Control of one of the members of the board would be a powerful political weapon.

In trying to get a line on the probable personnel and the method of selecting the boards, many Congressmen are besieging the war department with "nominations" and "suggestions."

Although the exemption regulations are still in the formative stage, it is known that President Wilson himself will pass upon the members of the appellate boards or exemption boards of appeal. Only men of the highest standing in each community will be picked for these vital positions.

Such men as college heads, prominent lawyers and men high in civil life will be given preference. Each federal or medical district will have one appellate board to review the finding of the local board, pass upon appeals and hold original jurisdiction in claims for occupational exemptions.

# DAVIE SCORES S. P. ACTS ON LONG WHARF

An application recently made by the Southern Pacific Company for a five-year extension of time from November 1915 to November 1920 for the Long wharf, was adversely reported upon by Mayor Davie to the City Council today, and upon his recommendation laid over until after July 1, when the personnel of the Council will have been re-elected.

Basing his report upon a communication from City Attorney Paul C Morf, the mayor laid stress upon the action of the railroad company in continuing to collect wharfage charges despite the provisions of the new city waterfront ordinance which gives to the city exclusive right to collect tolls and wharfage over its waterfront properties. The Long wharf, prior to the enactment of ordinance No. 3197 in 1915, was under exclusive jurisdiction and the property of the railroad company. The company, in return for certain other waterfront privileges, agreed to abandon the wharf in eight years' time and tear out the structure in order to give a clearer fairway to the city's frontage on the Key Route basin.

**BONE OF CONTENTION**

The ordinance provided that the

## "LABOR JURY" IN BOMB CASE TO BE SWORN IN

SAN FRANCISCO, June 11.—To "weigh the evidence fairly and impartially, to follow the instructions of the court and to render a verdict in strict accordance with the evidence introduced" will be the sworn duty of the "labor jury" which will sit informally in the case of Mrs. Rena Mooney, on trial on charge of complicity in the preparation of dynamite.

The "labor jury" will be sworn in by Rev. Arch Perrin, Episcopal minister, immediately before the opening of the afternoon session of court today. The men take the same oath as is administered to the regular jury. Following in the personnel of the "labor jury."

Wland 678 Twenty-third street, Oakland, carpenters' union, George Sweet, 535 Twenty-third street, Oakland, Alameda Building Trades Council, R. C. Green, San Francisco, railway trainmen, Philip Stuckel, 1369 East Twenty-seventh street, Oakland, boilermakers' union; Patrick Gallagher, Central Labor Council, Miami, Arizona, George Berger, San Francisco, millmen's union, F. L. Dingman, 1384 East Twenty-fourth street, Oakland, president shipyards laborers' union, R. J. Scott, Oakland, carmen's union; Daniel Dwyer, Oakland, iron workers' union, G. Willard, San Francisco carpenters' council. Miss Luella Twining, Oakland, will sit through the trial with the "labor jury" as secretary.

Southern Pacific should continue use of the wharf for a period of eight years "as heretofore."

These two words are now the bone of contention in the matter, the company holding in its presentations before the State Railroad Commission that the words mean that tolls and wharfage can be collected by the company as long as it is in existence. City Attorney Morf and Mayor Davie contend that this was merely a general term and that if it had been intended that the company was to charge tolls and wharfage to other than their own ships the ordinance would have so designated. The city ordinance provides that tolls and wharfage from vessels other than those owned by the company be collected by the city. This, Mayor Davie says, means that a double charge is levied, with the result that commerce is driven away from the Oakland harbor, private owners refusing to pay to both the railroad corporation and to the city.

The Railroad Commission was asked by City Attorney Morf to take action to prevent the Southern Pacific from making the double charge.

Attorneys for the company told the commission that "as heretofore" in the ordinance gives the company the privilege of making collections. The commission held that it will be necessary for the city to enter a formal complaint in the matter.

**OPPOSES EXTENSION.**

That the company is holding up the proper operation of the harbor ordinance.

That its system of wharfage collection is driving away commerce.

That the company and its sub-contractors are beyond the jurisdiction of the city of Oakland over waterfront lands situated beyond the low tide line of 1852.

These three reasons are given by Mayor Davie in opposing further extension of the Long wharf privileges to the company at this time.

Further, the mayor says, the attitude of the Southern Pacific in regard to its failure to improve its Fourteenth and Franklin-street property, as requested by contingent property-owners is another reason why a more definite understanding should be reached by the new city commission.

**SUPREME COURT ADJOURNS.**

WASHINGTON, June 11.—The Supreme Court today adjourned until October, for the regular summer recess.

## FOOD CONTROL BILL IS O'K'D

WASHINGTON, June 11.—The second administration food control bill granting broad powers to the President was agreed to by the House agricultural committee today by a vote of 12 to 3, and immediate report to the House was authorized. Chairman Leverett expects it to pass with less than two weeks of debate. The first bill now pending is to stimulate production of food, the second is to control distribution and price.

The bill provides a guaranteed minimum price to producers of perishable agricultural products under regulations to be prescribed by the Secretary of Agriculture. The committee dropped the plan for maximum price fixing on the ground that it was unnecessary.

The bill authorizes the limiting, regulating or prohibiting the use of foods, feeds or feed material for both alcoholic and non-alcoholic liquors.

It appropriates \$2,500,000 for purely administrative expenses, and \$150,000,000 more for carrying out its other purposes which would include guarantee of minimum prices, operation of factories, mines or other plants, and if necessary the handling of wheat supplies by the government.

The bill is designed "to provide further for the national security and defense by encouraging agriculture and regulating the marketing and distribution of foods and other necessities of life."

It includes fuel as well as food. It does not designate any particular agency of authority, but vests all authority to the President.

**HAIG PREPARING  
FOR NEW BATTLE**

(Continued From Page 1)

of the United States concentrated on aerial construction, the 1918 campaign would see Germany's air fighters not only outclassed but completely smothered.

**Hold Situation.**

In every phase of aerial work the British flyers at Messines dominated the situation. A flock of racy little one-seaters, working at an altitude of approximately 20,000 feet, kept the upper areas free of the German battle planes. In the lower strata, at altitudes varying from 3,000 to 5,000 feet, scouts equipped with observers and wireless experts reported every phase of the fight and gave messages which a few yards of battery practice and points at which reserves were moving.

Below these men perfect swarms of heavy fighting machines equipped with bombs and machine guns hovered a few feet from the ground and worked deadly execution with bomb and machine gun. They were specially effective in destroying observation posts and various staff headquarters of individual units. One daring flyer swooped down upon an automobile containing five German staff officers and a driver and with a single shot killed them all.

Below these men perfect swarms of heavy fighting machines equipped with bombs and machine guns hovered a few feet from the ground and worked deadly execution with bomb and machine gun. They were specially effective in destroying observation posts and various staff headquarters of individual units. One daring flyer swooped down upon an automobile containing five German staff officers and a driver and with a single shot killed them all.

**FEELS PIERCE.**

"Yes, it hurt something fierce," he said. "They told me that I had to do—and I really believed it, but I wasn't afraid. If I had confessed to kidnaping 'Eddy' they would have killed me, and I believed they would anyway."

"You can't describe the choking sensation. Of course, you struggle against it. None of us want to die and it is only natural. It feels like hell. But I honestly believed my time had come. Thought I was going to die. Didn't know how long they stretched me off the ground, but it seemed as if they never would stop.

As the rope tightened I felt something clutching at my throat. I couldn't get my breath.

"Then there came a faraway ringing in my ears, a sort of tinkling of church bells. Everything grew black before my eyes. I wasn't afraid then, more or less resigned to the inevitable. Then all grew dark and quiet. The ringing gradually faded out in the distance. That's about all I can remember until I came to.

"I felt weak in the knees and didn't know at first where I was." "Aren't you afraid to die?" Pier-

son was asked.

"I didn't want to, but I wasn't afraid. I had done nothing and was innocent. Guess my chief concern was about the old folks back home. I only wanted them to know that their boy was not what the people said he was—a murderer."

**RUSSIANS URGED  
TO STAY IN WAR**

## U. S. SHIP IS SUNK

LONDON, June 11.—An American vessel, the Magnus Manson, has been sunk by bombs and gun fire from a German submarine. It was formally reported today the crew has reached Faro safely.

The Magnus Manson was a wooden, five-masted schooner, owned by the Benedict Manson Marine Company and registered at New Haven Conn. She was built in 1904 and her gross tonnage was 1751.

LONDON, June 11.—The Belgian relief commission has received an unconfirmed report that the Norwegian steamship John Bakke, 1611 tons gross, with 2000 tons of wheat for Belgium by way of Rotterdam, has been sunk.

The Norwegian steamship Asbjorn, a vessel of 2264 tons gross register, which departed April 1 with a cargo for England, was torpedoed and sunk by a German submarine May 19 near the French coast, after leaving England for Africa.

**BOARDS NAMED.**

The exemption boards for Alameda county, one to each 30,000 population, to be composed of three men have been chosen and submitted to the governor. It was announced by Superior Judge Harris that since the county council of defense of which he is chairman were not requested to suggest the names of those to serve on the exemption boards, that he did not feel at liberty to give out for publication the names sent to Governor Stephens. The suggestions made by Judge Harris will in turn be sent to the President by the Governor.

## THOUSANDS ATTEND FUNERAL OF BABY

(Continued From Page 1)

threatened the prisoners with death. Having failed to obtain a confession, however, the two were returned to the sheriff unharmed.

The other prisoners—Taylor Adams, his wife and one son and Sam McGinnis—were still believed to be held at Stockton, Mo. The coroner's inquest into the baby's death will be held Wednesday.

Adams and Piersol owe their lives to the iron nerve of the latter. The sheriff apparently made no resistance to having his prisoners taken from him when the Springfield men promised him "on their word of honor" no harm would be done "to suspect" unless he "confessed to complicity in the baby's death."

A rope was placed around Piersol's neck, and the end thrown over a tree limb, and he was assured that he was about to die, "whether guilty or not," but only replied that he hoped "you will tell my parents I had nothing to do with the abduction or death of the Keet baby."

**IN KANSAS CITY.**

After their return to the sheriff's custody the two prisoners were taken to Kansas City.

There were reports today that additional arrests were expected shortly in the alleged kidnapping plots that had to do with the kidnaping of C. A. Clement, Springfield jeweler, a Springfield baby and a St. Louis munitions manufacturer, but they lacked confirmation. The condition of Mrs. Keet, who was prostrated by the news of her son's murder, was reported to have improved today. Mrs. Keet, the child's grandmother and reputed to be one of southern Missouri's wealthiest residents, was said to be still suffering from shock as a result of the tragedy.

**DESCRIBES HANGING.**

KANSAS CITY, Mo., June 11.—"It feels like hell."

That's how Claude Piersol, accused of the Lloyd Keet kidnaping, described the sensations of hanging today as he paced restlessly back and forth in his cell at the county jail here.

Piersol and Cletus Adams were brought here from Independence, Mo., shortly before noon yesterday by Douglas Sheriff J. F. Harris. Fearing that a mob might possibly take his prisoners away from him should he bring them to Kansas City's north end, and worn out after his all-night race with the Springfield "vigilantes," the deputy turned the prisoners over to Independence officials yesterday. Until they arrived here their whereabouts was a complete mystery.

Though haggard and worn after a sleepless night, Piersol stood the terrific grilling administered by Criminal Judge Rich Johnson and Springfield officials here today without flinching. He still stoutly maintained his innocence and declares he has told all he knows.

Concerning his near lynching, when he was cut down while unconscious, he talked freely.

**'FEELS PIERCE.'**

"Yes, it hurt something fierce," he said. "They told me that I had to do—and I really believed it—but I wasn't afraid. If I had confessed to kidnaping 'Eddy' they would have killed me, and I believed they would anyway."

"You can't describe the choking sensation. Of course, you struggle against it. None of us want to die and it is only natural. It feels like hell. But I honestly believed my time had come. Thought I was going to die. Didn't know how long they stretched me off the ground, but it seemed as if they never would stop.

As the rope tightened I felt something clutching at my throat. I couldn't get my breath.

"Then there came a faraway ringing in my ears, a sort of tinkling of church bells. Everything grew black before my eyes. I wasn't afraid then, more or less resigned to the inevitable. Then all grew dark and quiet. The ringing gradually faded out in the distance. That's about all I can remember until I came to.

son was asked.

"I didn't want to, but I wasn't afraid. I had done nothing and was innocent. Guess my chief concern was about the old folks back home. I only wanted them to know that their boy was not what the people said he was—a murderer."

**RUSSIANS URGED  
TO STAY IN WAR**

**BULLETIN.**

LONDON, June 11.—Great Britain has sent Russia a note in reply to the last request for a statement of British war aims. The note, although not yet made public, is stated to be in general agreement with President Wilson's note to Russia.

PETROGRAD, via London, June 11.—Energetic support of the provisional government by Cossacks has been pledged by their delegate to the congress of peasants, M. Kuban.

A host of wounded and sick soldiers from the hospitals paraded the streets yesterday in a great demonstration in favor of a continuance of the war. The procession was preceded by banners and motor cars carrying maimed men who were unable to walk.

**LABOR MEN HELD.**

LONDON, June 11.—Members of the National Seamen's and Firemen's Union have taken prisoner Frederick W. Jewett, president of the Independent Labor party, and James Ramsey McDonald, chairman of the Labor party, both members of Parliament who were about to sail for Petrograd.

## They Raved Over "Nobody Home" at the Oakland Orpheum Sunday

Two immense audiences drank in the beauty and the music of "Nobody Home"—laughed with joy at the merry fun of it—watched with bated breath the exquisite dancing of Mons. Rodolph and Jane Urban—cheered Frank Darien for his "Freddie Popple" funny stuff—admired the charming stage settings and costumes—and, lastly, indulged in these words:

### How Can the Orpheum do It At the Price?

Well—the management of the Orpheum is satisfied to "pack them in" at 25c and 50c for the best seats—satisfied to give a big, rich, overflowing entertainment and have the crowded houses and the pleased people—and just a modest profit. That's the answer.

Here Are Some of the Rich, Musical and Dancing "Plums" in This "Nobody Home" June "Pudding" at the Orpheum

# AUTO GOES OVER BANK; MAN KILLED

BERKELEY, June 11.—Buried from a automobile as it rolled down a foot embankment after a collision on the Port Costa road near Martinez. William Schnorr, a chauffeur, 22 years old, residing at 3820 Adelio street in this city was instantly killed at midnight last night, and two of his companions, Thelma Murphy and Jennie Sota of Port Costa were severely injured in the collision. Two other men in the car, William Balizer, 1925 Harrison street, Oakland, and E. E. Jarman Jr. of Crockett, escaped with slight injuries.

The accident occurred in Shepherd's Canyon about three miles west of Martinez. When Jarman's car struck the Murphy car at the starting-wheel struck the rear wheel of a car driven by C. T. Ness of Oakland. The impact did not damage Ness' car to any extent, but the other machine careened off and ran off the road, turning over and over as it plunged through brush.

Schnorr and Balizer left Berkeley yesterday afternoon for a pleasure excursion into the country, driving as far as Crockett in a small runabout belonging to Schnorr. At Crockett they left their machine and joined Jarman in a touring car. At Port Costa the party was augmented by the Murphy and Sota girls, and the journey was continued to Martinez by Ness.

#### AUTO VICTIM DIES.

SAN FRANCISCO, June 11.—Frank Billta, cement worker 40 years old, died at the Central Emergency Hospital early this morning as the result of injuries sustained last night in an automobile accident at San Bruno avenue and Dwight street. Billta was riding a motorcycle when he was struck by an automobile driven by Joseph King, a demonstrator employed by the Du Brox motor car company.

#### AUTO HITS TRAIN.

STOCKTON, June 11.—Luther Larkin Schumaker, employee of the Pacific Gas and Electric Company, died early this morning as the result of injuries sustained when an automobile accident at San Bruno avenue and Dwight street. Billta was riding a motorcycle when he was struck by an automobile driven by Joseph King, a demonstrator employed by the Du Brox motor car company.

IT devolves upon the young women of the nation to take the places of the young men who will shortly leave for service in the military establishment of the nation.

To render efficient service in business life these young women need an intensive training in business methods and business practice.

Elist for business by enrolling at Heald's. Do it now and you will be ready when the United States calls out the first army under the selective draft law.

The young men registered on June 5—the young women can best volunteer their services by registering at Heald's. Write, telephone or call.

## Mount Eden Shooting Mystery Prisoner Sticks to Story

In an effort to determine whether or not Baldi Bulotti, San Francisco furniture man, found shot to death in his hunting lodge near Mt. Eden last night, was the victim of suicide pact, a murder or an accident, Deputy District Attorney Myron Harris, accompanied by Deputy Sheriffs Joseph Soares and Bert Brown, went to the scene of the shooting today for an examination of the premises.

They spent the morning closeted with Cleveland Giacomella, Bulotti's companion, who claims to have done the shooting accidentally. Giacomella is lying on a cot at the county infirmary recovering from an attempt to cut his throat with a razor in the course of the shooting. Deputy Sheriff Soares declares the case is one of murder. Deputy District Attorney Harris, while admitting that may have been murder, declares that so far the case is without a motive, except a crime.

Giacomella, who is heartbroken over the tragedy as a result of which he attempted to take his own life, told of the hunting trip on which the two went forth yesterday morning. It ended at Bulotti's hunting lodge at Mount Eden, he said, where the two had dinner. After dinner Giacomella

## QUAKES CAUSE BIG DAMAGE IN ITALY

## OFFER MADE TO CUT DOWN COSTS

ROME, June 11.—Four violent earthquakes early today caused panic at Terme. Dispatches received here asserted great damage was done. All inhabitants of the town fled to the open fields and are now camping out there, fearing further earth tremors.

Terme is a town of about 31,000 population, located in the province of Perugia, forty-nine miles northeast of Rome. A big government arsenal is there. The town is famed for its Roman ruins and a cathedral. Ternia Traction Company at Ampere, twelve miles from here. The two were riding with Mrs. A. T. Reiger, who was driving.

MERCED, June 11.—Mrs. E. Allen of San Francisco sustained a broken leg and her husband was sorely bruised last night when their automobile was driven into a ditch where bridge is out, pending construction. The accident occurred near town. The driver missed the corner sign lamp at the ditch for the tail lamp of a machine he had been following. He had not noticed that the other machine had turned off the highway. Mrs. Allen is under treatment in a local hospital.

SONOMA, June 11.—George Goess, a young man of this place, was killed in an automobile accident near Boyes Springs last night. "Dutch" Andreux and George Carpenter were with him, but escaped injury.

CHICAGO, June 11.—Sylvester Just, 22 years old, and his wife, 20 years old, respectively, were killed and six other young men and women were injured when an automobile in which they were being driven at high speed crashed into a trolley pole. The automobile was driven by Norman J. Morris, 19-year-old son of Eugene Morris, chairman of the Central Freight Association.

## BOY SCOUTS WILL AID BOND SALE NEYLAN EXPLAINS HIS RESIGNATION

Four hundred boy scouts will solicit in every home and every office in Oakland Wednesday for the purchase of Liberty Loan bonds. Their campaign, directed by the membership committee of the Oakland Chamber of Commerce, will be part of a nation-wide movement starting to day and extending over four days, in which twenty million calls will be paid in American homes.

"The boy scouts of this city the scouts will obtain applications for the purchase of bonds from approximately 100,000 persons. The boys will turn in these applications to the Boy Scout headquarters and later bond salesmen will call at the homes and offices to collect the amount of the bonds applied for. Many thousands of bonds will be sold."

"The Boy Scouts will visit every home and office in Oakland Wednesday in an effort to obtain bonds," added N. O. Lawrence, president of the Oakland Council of Boy Scouts of America, and chairman of the membership committee of the Chamber of Commerce, who together with other members of the two organizations is personally supervising the work of the scouts.

All over the United States Boy Scouts who are not old enough to be called to the colors under the draft are helping gather funds for the Liberty Loan.

Boy Scouts will work under the direction of 11,000 men and their campaign is their response to President Wilson's appeal to them on May 19 to "lend their aid to the Secretary of the Treasury in distributing applications and securing popular subscriptions" to the loan.

The President wrote to the boys that theirs was "a wonderful opportunity for every scout to do his share for his country under the slogan 'Every Scout a Victor' to every householder."

"Let the Boy Scout who presents this folder to you take your application for one or more of these bonds to the bank you designate and thus help us in our efforts to help our country and save the lives of our soldiers."

Every Scout who obtains subscriptions after twice refusing the tender of a check for \$100,000 offered in settlement of the city's claims against the Great Western Power Company for franchise tolls alleged due, the city council was today confronted with a proposition to settle its suit for \$100,000 pending against the corporation, for the sum of \$550.

The city claimed that the company is in arrears on payment of a certain percentage of its receipts for power distributed within the city for several years past and fixed the delinquency at \$100,000. Demand was made upon the corporation for payment and the power company, using its estimates upon its books, accounted that the sum of \$11,000 was due the city up to January 1, this year. A check was mailed to the city treasurer but upon advice of City Attorney Mori it was returned. The city then entered another and final demand, got the check back and again returned it to the corporation shortly afterward filing suit for \$100,000.

Under section 957 of the code of civil procedure, the city's attorneys have offered to allow the city as plaintiff to take judgment in the sum of \$550. If the plaintiff fails within five days to accept the offer it automatically will stand if the plaintiff fails to obtain a more favorable judgment it cannot recover costs that subsequently accrue, according to Assistant City Attorney George O. Perry. No action was taken by the council in the matter.

## PROBE PLUNGE

SAN FRANCISCO, June 11.—Miss Alice May E. Tooker, 28 years old, who was instantly killed when she plunged five stories into the street from her room in the Garland Apartments, Sixteenth and Valencia streets, are today endeavoring to place some motive for her leap to death.

Her brother, John C. Tooker, of 224 Shotwell street, who was driving past in an automobile with a party of friends, stopped when he noticed the crowd last night to learn what had happened and found the body of his sister on the pavement. He expressed the belief today that the fall was an accident. He said his sister had always been in perfect health and good spirits.

The window from which the fatal plunge was taken is about two feet square and is situated in the small closet behind the wall bed in the living room. Miss Tooker had swung the bed around to gain access to this closet and had placed a chair to raise herself to the height. She would have to reach to leap or fall into the room which was in perfect order and no note was left to explain her action. She was fully dressed.

Miss Tooker kept house for her brother, William H. Tooker, a salesman for a shoe company, and is survived by two other brothers, Edwin F. Tooker of Fairfax and George E. Tooker of 515 Heald street.

## FEAR TONG WAR

Open hostilities between rival Chinese tongs may be resumed at any moment. The police watch is being maintained in Chinatown the police having received information to the effect that gun battles are being imported from northern cities. Since the murderous outbreak in Oakland, San Francisco, Stockton and other cities up and down the coast two months ago, there has been a sort of armistice between the warring tongs and efforts have been made to hold a peace conference in San Francisco.

The Bing Kong and the Suey Sings are becoming restless over the news. In bringing about a final adjustment of their differences, many prominent Bing Kong men have been hiding in Oakland, are commencing to show themselves in the streets of Chinatown rather carelessly without guards, the police have observed, and with the rumored arrival of Suey Sing from other parts it is feared that revolvers may begin cracking away again without further warning. The score is uneven at the present time, the Bing Kong having slain more men than their adversaries.

## SEEK COMPANIONS

SAN FRANCISCO, June 11.—Police of the bay district are on the hunt for the two companions of the unidentified burglar, shot and killed last night by Peter Carbonero, night watchman for the F. Thomas Dyeing and Cleaning Works, 27 Tenth street, who detected the men in the act of breaking a window to gain entrance to the company garage.

Carbonero fired as the burglars tried to escape across a vacant lot. One bullet took effect. The other two were captured in the darkness. The initials "K. and J. G." tattooed on the left arm of the burglar killed is the only clue the authorities have to his identity. The nightwatchman was taken to the city prison and charged with murder. He was later released on \$100 cash bail on order of Judge Oppenheim.

Carbonero says he shot when the men refused to halt.

## CAMPERS HOSTS

Oakland Young Men's Christian Association pitched their annual camp near Merced Hill where they were called upon to play the part of hosts to visitors from home. During the week-end friends of the lads motored out to the camp and were entertained. The visitors included Senator Arthur H. Fred, whose son is one of the campers; Dr. Walter Peterson, Mr. and Mrs. William Nat Friend and Mr. and Mrs. Harry Dugell of the city. District Attorney Arthur M. Fred of San Jose addressed the boys yesterday. The camp was opened Thursday and will close Thursday, June 30.

## PLAN IS APPROVED

WASHINGTON, June 11.—Overwhelming approval of a war financing plan following closely the lines of the war tax bill now pending in Congress has been voted by the organizations composing the Chamber of Commerce of the United States.

The result of a referendum announced last night by the chamber shows votes ranging from \$90 to 1300 in favor of increased income and excess profits taxes, increased postage rates, increased tariff rates and stamp and excise taxes.

LAMOINE, June 11.—Miss Margaret Heaney, teacher of the local district school for the past two years, was found dead in her room at the local hotel. She died by her own hands, as indicated by the poison tablets lying on the stand at her bedside. Several of the tablets had not been used.

Neylan made the following statement:

"I have today submitted to Governor Stephens my resignation as chairman of the Board of Control, asking that it be effective June 30, the end of the present fiscal year.

"I have accepted a partnership in a law firm of San Francisco. After six years in public office, it is essential for me to give some attention to my private affairs."

"I have not lost my interest in the great things accomplished in this state during the last six years. I feel, however, that I can render better service in private life than by continuing in public office."

Neylan was appointed chairman of the Board of Control by former Governor Frank Johnson when the board was formed in 1911. He also organized the financial committee of the State Council of Defense.

Edward A. Dickson, a member of the State Tax Commission, is mentioned as the most likely successor to Neylan.

It is expected that Clyde Seavey will become chairman of the board, to succeed Neylan. Seavey is the senior member of the board. Speculation as to the third member of the board is rife in the capitol. Although the governor's office will make no statement at present, it is understood the choice lies between Secretary P. J. Tehaney of the board and Dickson, member of the State Tax Commission.

P. J. Victor of Oakland, secretary of the Board of Control, is also being groomed for the appointment to fill the vacancy left by the resignation of Neylan. He has been secretary of the Board for several years.

"Let the Boy Scout who presents this folder to you take your application for one or more of these bonds to the bank you designate and thus help us in our efforts to help our country and save the lives of our soldiers."

Every Scout who obtains subscriptions

at ten or more different homes will be awarded a war service emblem.

The movement represents the largest single effort ever undertaken by the organization.

# TEN MEN IN MINE TOMB STILL ALIVE

BUTTE, June 11.—Ten miners have been found alive on the 2200-level of the Speculator mine. Helmet men have been in communication with them. These men using cement sacks and mine water bulkheaded themselves in so thoroughly that tools had to be brought to break through their living tomb. The men are reported to be in good condition. Helmet men were sent to the surface for food for these men and for helmets for their use so they may be taken to the shaft in safety.

## BODIES FOUND.

Coroner Aeneas Lane this morning stated that sixty-three bodies had been recovered from the Granite Mountain shaft of the North Butte Copper Mining Company as a result of Friday night's fire. Ten are unidentified. The coroner said the death list would probably reach 135 and that it is expected there are still seventy-two bodies in the mine. After all hope that any men would be rescued was given up yesterday, the rescue workers were startled by a signal from the 2400-foot level of the speculator shaft, adjoining the Granite Mountain. Hel-

## Cool, Fresh Provisions in Even the Hottest Weather!

In the warm weather your health and comfort require a Refrigerator in your home. Here are three makes—all good and up to Howell-Dohrmann Company standard:

Kingston Model	No. 907—Galvanized lined,	25 lbs. ice	\$8.75
No. 909—White Enamelled	Lining, 35 lbs. ice	\$12.50	
No. 911—White Enamelled	Lining, 50 lbs. ice	\$15.00	
No. 913—White Enamelled	Lining, 60 lbs. ice	\$18.00	
No. 952—White Enamelled	Lining, 75 lbs. ice	\$27.50	

### Glacier Make

These refrigerators have one-piece porcelain linings. No. 669—40 lbs. ice capacity \$21.50

## SOCIALISM ENTERS DIVORCE ACTIONS

Because Olive C. Coats would not listen to Socialist doctrines over the telephone her husband, George N. Coats, called her "a stubborn black-head" and said that she will not get anything as it concerns her divorce complaint filed this morning. She declared that a woman friend of her husband tried to convert her to radical political ideas in a wire conversation and that she refused to listen.

The divorce suit of Samuel Rosenthal, an Oakland grocer, against Sarah Rosenthal, who is being tried before Judge J. J. Trabucco. The plaintiff testified that morning that his wife threw sandwiches and a bottle of beer at him in view of the types and that he once paid her \$50 to induce her to take a automobile trip with him in a party of friends. The defendant has filed a cross complaint in which she denies these allegations and asserts that her husband wanted to have his children schooled by Emma Goldman in anarchist doctrines.

Suit for divorce was filed by Elife A. Barnhill against Audley H. Barnhill. Charles M. Johnson was denied a decree by Judge W. H. Donahue, who granted an interlocutory decree to the wife and cross-complainant, Mary Johnson. Each was given the other of desert, and the Court ruled that the defendant presented the stronger case.

An interlocutory decree was granted by Judge W. M. Conley to Mike Lapinovich from Rae M. Lapinovich.

met men quickly descended to the level and found a group of twenty-five men alive and in good physical condition. These were quickly hoisted to the surface. The men had entrenched themselves against the deadly gas in a small blind tunnel. With their clothes drawn over, under the instruction and leadership of Manus Duggan, a miner, constructed a gas and smoke-proof curtain which they hung at the entrance of the tunnel. They kept the gas out of their retreat for thirty-six hours.

### BOY IS HERO.

When the pangs of hunger and thirst drove them out of their safe retreat Duggan essayed to lead them to the shaft. Duggan became lost or overcome in groping his way to the shaft station, and while all the men he saved have been rescued, the young hero has not been found. The work of recovering bodies is going forward slowly. The helmet men have not yet penetrated the lower levels of the mine. The removal of the bodies is progressing very slowly. A public morgue has been established at the mines and an order has been issued that no more bodies may be brought into the city because of the state of decomposition of many of those now being recovered.

If Max Duggan, hero of the disaster, returns from the tomb of the dead to the living, he will find that since the accident he has become a father. The babe was born Saturday morning as the father was battling with twenty-eight others against death. Every one of twenty-five men saved through the efforts of Duggan is praying for the safety of the 22-year-old nippur or tool boy.

### STUDENT KILLED.

WALLA WALLA, Wash., June 11.—Hershel Henderson of Milton, Ore., the first man elected to the presidency of the Associated Students of Whitman College, was killed in the Speculator disaster in Butte, according to word received here. His mother left last night to endeavor to recover his body.

WILL BUY BONDS

Stereotypers and Electrotypers' Union, No. 29, subscribed \$2700 for the purchase of Liberty bonds, at its regular meeting yesterday. This sum was voted from the union funds and does not include individual subscriptions. Twenty-two hundred dollars of the fund will be expended for bonds in San Francisco and \$500 in Oakland.

GIVES GOLD; DIES

LOS ANGELES, June 11.—Leaving a shower of gold behind him as he gave twenties and tens and fives away to those who crossed his path, Nathan S. H. Hillman, 38, of Beloit, Kan., led the crowd who followed him hoping for more gold, to a cheap rooming house here. While dozens waited in the belief he would reappear with more gold, he bit out his brains.

**THREE ARE SLAIN**  
HUNTINGTON, Ind., June 11.—Three men were killed this morning when a boiler in the Erie railroad engine house exploded at Uniondale, east of here.

## HOW TO GET RID OF CORNS

A Simple, Safe and Reliable Way.  
No Pain or Soreness.

Thanks to a new discovery made from a Japanese product, women will soon be wearing smaller and prettier shoes than ever. Corns are to be a thing of the past. A new preparation called Ice-Mint is said to make all corns disappear. It shrivels right up and lifts off easily. Hard corns, soft corns or corns between the toes can be lifted right out, root and all. Ice-Mint is wonderful. No pain and a bit of coolness while applying it or afterwards. People are warned to stop cutting and trimming their corns and avoid the risk of blood poison. Simply get a small jar of Ice-Mint from your druggist and from the very second you apply it to your feet you will notice in your poor, tired, aching feet will feel so cool, easy and comfortable that you will just sigh with relief. Think of it; just a little touch of the cooling, soothing ice-mint on your foot—it is years old is the real Japanese Secret of fine healthy little feet, and is highly appreciated by women who wear high heel shoes and men who have to stand on their feet all day.—Advertisement.

**DEATHS**

HARTLEY—In this city, June 10, 1917, William Hartley, beloved husband of Rose Hartley, loving son of Mr. and Mrs. John William Hartley, brother of Mrs. Fannie Copps, Realtor E. John and Eddie, died at 10:30 a.m. at his residence, Cal., aged 24 years, 9 months and 8 days. A member of Court Pledges, No. 7808, Ancient Order of Foresters.

FRIENDS are requested to respectfully attend the funeral Tuesday, June 12, 1917, at 3 o'clock p. m., from his late residence, 117 Madison street, Interment, Elmwood cemetery.

Members of Court Pledges, 7808, Ancient Order of Foresters, are hereby notified to attend the funeral of our late brother.

**The Curious Quest  
Mr. Ernest Bliss**  
By  
E. Phillips Oppenheim

Continued From Yesterday.

Bliss saw a good many familiar names there, and somehow or other conceived a dislike for Mr. Montague.

Suddenly the door was opened.

"Step this way, young man," the small boy directed.

Bliss looked down at him for a moment, then he sighed.

"Certainly, sir."

The office boy glanced at him suspiciously, but Bliss' face was immovable.

"I can't have all my appointments for the morning over," the "small boy" declared in a peremptory manner. "I have several important clients coming within the next hour. Whatever your business with Mr. Montague is, just rush it, there's a good fellow, this way."

He followed the boy, who directed Bliss to himself in the presence of his prospective employer, and noted with some disapproval that Frances was seated by the side of his desk with an open-note book in her hand.

Mr. Montague conformed to type. He was fresh-colored, with black hair and eyebrows, and unmistakably Semitic. He was dressed with great splendor and amazing accuracy of detail.

"So this is the young man, eh?" he observed affably, when Bliss entered.

Frances looked up and nodded to Bliss in friendly fashion.

"Mr. Bliss, the friend of whom I spoke to you," she uttered, a little stiffly.

Mr. Montague smiled and somehow seemed to show all his white teeth.

"A recommendation from Miss Clayton goes a long way, a very long way, indeed," he declared. "Still, there are other things. You think you can drive a car properly, young man?"

"I have been in the habit of driving mine," Bliss replied.

Mr. Montague composed himself in his chair.

"To my mind," he pronounced, "the chief enjoyment about motoring is to go the greatest number of miles at the smallest cost. I shall engage you on trust. Bliss, because of Miss Clayton's recommendation. You will find your food master, and your wages will be liberal. I shall give you two pounds a week, but—remember this, I expect your accounts kept down to a halfpenny. I know exactly what it should cost to run a hundred miles, and it is always interesting to me to try and do it a little cheaper."

"Here is my card," he went on, scribbling on the back. "Go to Elliman's Garage in Emsell street, look over my car, and have it around here at 1 o'clock. I shall not order you any livery at present, until I see whether you suit. That's all right, eh, Miss Clayton?"

She smiled at Bliss and rose to her feet. Mr. Montague, however, detained her.

"That will do now, young man," he said to Bliss. "You can occupy your spare time until 1 o'clock by a little polishing. I like everything about the car to shine."

He flicked a speck of dust from his patent boots with the corner of his silk handkerchief.

"Don't leave, Miss Clayton," he added. "I have another letter for you yet. And, Bliss, just remember, will you, that I am an exceedingly punctual person. I like everyone about me to be on time. Better have your dinner before you bring the car around. You will take me out to luncheon, and wait for me. One o'clock."

CHAPTER XVII.

Bliss entered upon his new job and hated it. He was, furthermore, afflicted by an entirely new sensation. Mr. Montague, a little surfeited, perhaps, by the flamboyant charms of the multitude of his lady friends, was obviously disposed to admire his typist, and seemed quite unable to comprehend her avoidance of him.

On one of his evenings off Bliss talked to Frances seriously.

"Look, you know," he said, "when I came in this morning for orders that was trying to hold your hand."

She frowned.

(Continued Tomorrow.)

**WOMAN IS ROBBED**

SAN FRANCISCO, O'clock this morning, Mrs. Sarah Marn, proprietor of the Grey Hotel, 767 Howard street, went to the front door where she was confronted by two masked men who forced their way into the place.

The two men compelled Mrs. Marn to lead them to her room where they bound and gagged her with bed sheets. The men took \$62 from a trunk and \$4 from a purse and escaped. Mrs. Marn was released an hour later by Mark O'Connell, a roomer, who heard her groans.

**RECEIVER DISCHARGED.**

CHICAGO, June 11.—Federal Judge Carpenter announced today that the reorganization of the Chicago, Rock Island and Pacific Railway was satisfactory and discharged Jacob M. Dickinson as receiver.

**Beautify the Complexion**

IN TEN DAYS  
Nadinol CREAM  
The Unequaled  
Beautifier  
USED AND ENDORSED  
BY THOUSANDS

Guaranteed to remove  
tan, freckles, pimples,  
liver spots, etc. Extreme  
cases about twenty days.

Rids pores and tissues of impurities.  
Leaves the skin clear, soft, healthy.  
Two sizes, 50c and \$1.00. By toilet  
counters or mail.

National Toilet Company, Paris, Tenn.

**Don't try to Cover up a bad Complexion! clear it with Resinol Soap**

If your complexion is rough, red or pimply, don't try to cover up the defects. It deceives no one and only makes bad matters worse. Begin today to clear your skin with Resinol Soap.

Just wash your face with Resinol Soap and hot water, dry and apply gently a little Resinol Ointment. Let this stay on for ten minutes, then wash off with more Resinol Soap. In a very short time you will usually find your skin becoming beautifully soft, clear and velvety.

Resinol Soap and Resinol Ointment are sold by drug stores. They are safe and beneficial for the skin but for the hair, too.

There is a patriotic thrill promised

the 500 women of Alameda county on Wednesday when all the residents of the vicinity only they are fortunate enough to be numbered with those who will meet Governor Stephens at Hotel Oakland. Waving flags, the stars, spangled banner supported by the symbols of the allies, floating streamers of red, white and blue, fliers holding in their petals the national colors, martial music and stirring addresses, eager hearts waiting for service—here is all that is needed for the big thrill of the moment.

Governor Stephens comes to Oakland to be the women's guests. The officers of the Alameda County Woman's Committee of the Councils of National and State Defense have arranged the day's entertainment.

A luncheon followed by a reception and then a motor tour of the east bay cities are on the cards to be followed in the evening by a great mass meeting in the Municipal Auditorium with the Native Sons and Daughters enter-

tainers.

Governor Stephens and Acting Chairman Naftzger of the State Council of Defense will be the only speakers following the luncheon, Miss Ethel Moore introducing them. Those who will be seated at the speaker's table will be Mrs. Robert O. Moody, Mrs. A. E. Carter, Mr. and Mrs. W. Lee, Mrs. L. G. Leonard, Miss Besse J. Wood, Mrs. Frederick T. Weston, Mrs. J. N. MacGregor.

Captain Sherman Miles, U. S. A., and Mrs. Miles, who in the several weeks which they have spent in San Francisco, left on Friday to assist in the east where army orders have assigned Captain Miles. During their sojourn here they were the guests for part of the time of General Oscar F. Long and Mrs. Long in their Piedmont home. Captain Miles was sent to the bay cities to assist in the preliminary work of the reserve camps.

J. N. MacGregor will sing a group of patriotic songs, including "Star Spangled Banner," "I Love You, California," and "American Pie."

Miss Besse J. Wood is chairman of the reception committee.

Among those who will be hostesses at the various tables will be Mrs. C. S. Chamberlain, Mrs. J. B. Hume, Miss Theresa Russau, Mrs. W. W. Hunt, Mrs. Frank C. Havens, Mrs. Thomas Hogan, Miss Lorena McIntyre, Mrs. A. D. Kennedy, Mrs. William Thornton Blackburn, Mrs. A. W. Forshaw, Mrs. W. W. Hunt, Mrs. S. H. Purvis, Mrs. A. M. Beebe, Mrs. Sarah Borland, Miss Mary McCleod.

Mrs. Oscar F. Long and Mrs. Wickham Havens, together with Miss Elizabeth Livermore and Mrs. Lawrence Harris were named by the Woman's Athletic Club to represent it at the benefit ball game yesterday between San Francisco and Oakland. It was a brilliant occasion which took such leaders to the Recreation Field where for the sake of the Red Cross the two home teams put forth all the thrills which their fierce rivalry prompted. The women who were masters of the great American sport forgot their dignity perhaps not quite so much as those who were carried away with enthusiasm for results. Baseball is surely coming into its own, although it may be by the benefit route. But let the leaders of the smart set put their stamp of approval upon it and the men will have to divide even this masculine pastime with their wives and sisters. The extra game today rolls man a comfortable dollar into the patriotic coffers.

Mar. 11. — The Weather

FORECAST TILL 5 P. M. TUESDAY.

Oakland and vicinity and Northern California, rain and drizzle tonight and Tuesday, light northern wind.

Southern California—Fair tonight and Tuesday, except cloudy or foggy along the coast tonight; light westerly wind.

San Joaquin and Santa Clara valleys—Fair and warmer tonight and Tuesday; light northerly wind.

Los Angeles—Fair and warmer tonight and Tuesday.

WEATHER CONDITIONS.

The depression continues in the Plains States and has caused light rain through the northern tier of states from the Pacific to the Mississippi river and in the British Possessions. Light rain is also reported from Maryland and Pennsylvania and northward over New England. It is cooler in the Plains and in the Mountain region, but in other sections the changes in temperature have been slight.

Frosts are reported in Nevada, Idaho and Eastern Oregon. Conditions are favorable for a warm climate weather in Northern California and Nevada and fair in Southern California, except clouds or foggy along the coast tonight.

TEMPERATURE; RAINFALL.

## WORKERS TO AID WELFARE FUND

One hundred committeemen and workers will meet for dinner tonight at the local Young Men's Christian Association building for final instructions in the campaign to raise funds for the welfare work among American soldiers and sailors which is to begin tomorrow. Arthur W. Moore, chairman of the local war work council, will preside at the meeting and Captain V. H. Buffet of the Engineers will be the principal speaker. E. M. Free, district attorney of Santa Clara county, will also speak.

A gathering of the Federated Women's Clubs at the Hotel Oakland this afternoon the war work service of the Y. M. C. A. was presented by Dr. J. T. Legge of the University of California, and F. A. Jackson, general secretary of the Berkeley Y. M. C. A.

C. R. Hughes, a New Zealand secretary of the Y. M. C. A. service, gave a stirring address to the members of the club at their meeting last night. Since the Oakland Y. M. C. A. has thrown open its doors to the enlisted men and given them all their privileges free of charge, the local building fund has reached a rendezvous for Uncle Sam's fighting men.

It is to promote this patriotic work that the National War Work Council has been organized and has outlined a training program for work among the troops in the concentration camps. Over a thousand Y. M. C. A. secretaries are to serve with the troops.

Of the \$5,000,000 necessary to carry on the work, the Y. M. C. A. share is \$125,000. Oakland's campaign is for one-half of that amount.

It is to secure a husband for the princess and finally picks on Ike, who unsuspectingly enters into the contract, only to realize that he made a mistake. The girl is a bit of a tomboy, but her mother is considerate of him.

Ike's father is funny that all giggle over his eccentricities cropping out anew.

Dr. Aurelia Henry Reinhardt, president of Mills College, is spending a part of the mid-June in California. She left on Friday for a brief sojourn of a week or so.

Mill Valley is attracting Mrs. C. S. Chamberlain for a part of the mid-summer vacation. She is spending a week going over to spend several weeks as the house guest of her daughter, Mrs. John Finn. Mrs. Chamberlain arranges to pass a part of each year in the lovely place of the Finns at the foot of Mount Tamalpais.

# OAKS BETTER THAN SEALS AGAINST ANGELS

## Howardites Take Two Games When Hack and Ray Hit in the Pinch and Sheehan Saves Game

By C. E. BRAZIER

An even break with the club that has cleaned up the Beavers and Seals in the last month just when the Seals and Beavers were supposed to be going at their best—that's one cause for the smile on the Oakland fan's face today.

Only half a game behind second place and above the .500 mark with the Coast League race one-third over—a condition that Oaks fans have not known for several years—that's another cause for the smile.

### BEAT ANGELS' STRONGEST LINEUP

Two games taken in one day from the strongest combination that the Angels could put in the field, 4 to 1 in the morning with "Happy" Goodbred pitching his best game of the year, and 7 to 6 in the afternoon in one of the most sensational games of the year with Jack Sheehan saving it on the last play by a great one-handed stop of a line drive with two Angels on base—these are enough to complete a perfect day for the Oakland fan.

Those two wins yesterday evened up the week's play with the Angels at three games each, and today the Oaks start their series with Harry Wulerton's Seals with the confidence that they are better than the Seals. For the Oaks broke even with the Angels last week, and the week before the Angels cleaned up six games out of nine from the Seals. All the more to the credit of the Oaks is that the Angels had their full strength in action in the last game that the Oaks took, whereas Fournier did not break into the game during the Seal series.

### SPORT OF CHAMPIONS STOPPED

The Angels came to the bay last week with a record of having cleaned up all-comers since they started their ascent from their early season basement position. The Angels had taken four out of six from the Tigers. Then they took five out of seven from the Beavers, and then the big cleanup came in the form of six out of seven from the Seals. All of which makes Oakland's even break with the Angels all the more to the credit of Del Howard's squad.

Oakland pitchers held the Angels to a weekly batting average of .242 last week, 29 points lower than Seal pitchers could hold the Angels the week before. Oakland batters hit .247 last week against the Angels, two points better than the Seals could hit against the Angels the week before.

### GOODBRED AT HIS BEST

There was plenty of variety dispensed up in yesterday's two-ball games. There was air-tight pitching in the morning game with Happy Goodbred holding his own with the veteran Jack Ryan and getting the better of him when the breaks favored the Oaks and set the stage for Hack Miller to hit in the pinch with the bases filled and break up a tie score. In the afternoon the Oaks took the lead only to lose it when Bill Burns was called in to pitch the last two frames again when Zeb Terry dropped a throw and gave Hack Miller another chance with the bases full. In the morning he hit for a single with the bases loaded and scored the run that the afternoon he accounted for as a double when he saw three men on the paths and he chased them all home.

But the weird ninth inning finish of the Angels in the matinee was the real feature of the day. Sudden and unrelieved Bill Burns when the latter could not hold the Angels. Beer got by in good shape but gave way to a pinch hitter and Ray Kraemer took up the job. Kraemer walked twice, then hit a base-on-balls and had been on wide one to the next batter when Harry Krause was called in to save the day. He held Bassler, Meusel, and Vaughn to indecisive plays and got by that eighth inning without allowing a score.

### SHEEHAN'S GREAT STOP

Giving into the ninth inning with the Oaks to the good, 7 to 4, Krause caught the fever which seemed to have hit all of the Oaks. The fans were easily disposed of on infield balls. But with two gone and the Oaks' three runs to the good, the fans were pouring out of the stands when Krause went to the bad. He hit Killeen, Miller, and Bassler, then walked Boles and Killeen and Boles single. Then Krause walked Ellis and the bases were filled with three Angel runs needed to tie the score when Meusel was sent to bat for Terry. Meusel poked a single to center and two runs charged him. Ellis moved up to second. The Angels had run on second that would tie the score, and Bobby Davis, former Oak, was the hope of the southerners to even up the score.

Bobby went to bat for Curley Brown, who had relieved Hall after the latter gave way to a pinch hitter in the eighth. Davis met one and cracked it towards center for what looked like a sure single and Ellis. But Jack Sheehan meant a tied score. But Jack Sheehan was over towards second like a shot, and his gloved hand shot out in front of that ball and held it for the third out of the game and the Oaks were still safe in second place.

### HACK MILLER AGAIN

The Oaks had scored two in the opening frame when Menor walked, advanced on Middleton's cut and Lee's infield hit, and scored on Ray Miller's hard drive into right. Hack Miller's single to center

scored Lee.

The Angels hit Bill Burns in each of the first three frames, but they did not get through him. The fourth, the fifth, and Boles started with singles and Killeen beat Burns twice to third on a slow infield ball from Ellis. Terry forced Ellis and Killeen scored. Hall forced Terry and Boles scored. Maggett rolled slow to Davis, Miller hit him, Bill Burns to the base for safety and two more runs romped in when Vaughn doubled to left center. That finished Bill Burns and Beer stopped the scoring when Killeen popped to Johnson.

The two games led off until the seventh when ten Oaks went to bat.

Roy McCreary, the Oaks' star, went in the eighth, and he was the show roller that went to bat for a single.

Lee gave the Oaks their start in the seventh when he and Harry Krause pursued Empire Casey that Vaughn's throw from the plate had failed to catch the runner. Lee was credited with a single and advanced on Ray Miller's single into center. Roy Murphy dumped one that Vaughn could have handled for an out at first, but Jack Ryan burst in and took the ball and turned it over throwing to first and Sheehan beat the throw, filling the bases. Then came Hack Miller with a single to center that chased in two runs and Roche chased in another with a single into right.

### LEE STARTS THE OAKS

It was a strong seventh inning that saw the Oaks take the lead. Lee's sacrifice had stalled and stolen second in the first frame, taking third on Middleton's sacrifice. Lee chased him home with a single to short left. The Angels tied the count in the fourth with a single and Vaughn's throw from the plate over Goodford that took so long in coming down that Sheehan had no chance for a play to first. Meusel stole second and scored when Murphy missed a run rule. Roy McCreary's show roller that went to bat for a single.

Lee gave the Oaks their start in the seventh when he and Harry Krause pursued Empire Casey that Vaughn's throw from the plate had failed to catch the runner. Lee was credited with a single and advanced on Ray Miller's single into center. Roy Murphy dumped one that Vaughn could have handled for an out at first, but Jack Ryan burst in and took the ball and turned it over throwing to first and Sheehan beat the throw, filling the bases. Then came Hack Miller with a single to center that chased in two runs and Roche chased in another with a single into right.

### HELEN WINS A NEARBY RACE

The yacht Helen did not need her shortest handicap of eight minutes to beat the Yacht Star in the American Yacht race at Commodore Strom's Speedwell, running from scratch. The race was in 3:26:45. The Nautiles, with a handicap of 50 minutes, had a corrected time of 3:35:30.

## Chick Evans and Partner Beaten

KANSAS CITY, Mo., June 11.—Two thousand persons composed a gallery which followed the final eight of a 36-hole tournament which will net \$10,000 for the benefit of the Red Cross.

On Friday, June 9, Chick Evans, the present open amateur national champion, and Alden Swift, of the United States, played in the first round.

Evans, a 21-year-old from Toledo, Ohio, and Swift, a 20-year-old from Milwaukee, were the leaders.

On Saturday, June 10, the two leaders were beaten by a team consisting of George Schmid, of Toledo, and Frank Thompson, of Milwaukee.

Evans and Swift, however, were the leaders again on Sunday.

Evans, who had won the first round,

had a 72-72 total, while Swift had a 71-73.

Evans and Swift, however, had a 72-72 total.

## SOME WAR AIMS OF AMERICA.

President Wilson's note to the provisional government of Russia, made public yesterday, stated in unmistakable terms the war aims of the United States which are held to be the common purposes of all the nations at war with the Teutonic-Turkish alliance. There are other objects which the United States is pursuing, but they are principally issues between this government and Germany. President Wilson therefore has outlined in his message to the Russian democracy a basis upon which the partnership of Russia and the United States in the war may be formed. The conditions—the "aims" of this country—may be summarized as follows:

America seeks no material profit or aggrandizement of any kind. She is fighting for no advantage or selfish object of her own, but for the liberation of peoples everywhere from the aggressions of autocratic force.

The power which the ruling classes of Germany, through intrigue aimed at nothing less than the peace and liberty of the world, have raised up all the way from Bagdad to Berlin and beyond, must be broken.

It must be broken by righting the wrongs done by that power.

Adequate measures must be taken to prevent this number of intrigue from ever again being re woven.

The condition which existed before the war, "the power of the Imperial German government within the empire and its widespread domination and influence outside of that empire," must be altered in such fashion as to prevent any such hideous thing as the present war from ever happening again.

Wrongs must be righted and then adequate safeguard must be created to prevent their being committed again.

No people must be forced under sovereignty under which it does not wish to live.

No territory must change hands except for the purpose of securing to those who inhabit it a fair chance of life and liberty.

No indemnities must be insisted on except those that constitute payment for manifest wrongs done.

No readjustments of power must be made except such as will tend to secure the future peace of the world and the future welfare and happiness of its peoples.

These statements contain little that has not heretofore been explained; the President covered most of the ground in his message to Congress on April 2nd. The terms have been rearranged in order to render them more easily understood by Russia. President Wilson happily refrained from again reminding Russia of the wrongs which America has directly suffered by the ruthless and piratical warfare of the German empire, which is inspired by the long evident policy of the German government to strike a mortal blow at the "peace and liberty of the world."

This note is a plain and concise definition of America's conception of her place among the other nations attacked by Germany, and the purposes to which she should adhere during the war and in the readjustment aimed at in the peace agreement. The murder of innocent neutral American citizens and the plots against the peace of this country will be discussed with the government of Germany at the conclusion of the war. The war cannot end, says the President, until Germany is decisively defeated.

## AN ENCOURAGING SIGN.

General Goethals has inspired confidence by his decisive action in reforming the personnel of the federal shipping corporation. Two mining engineers who voluntarily advocated an all-wooden merchant ship fleet of from 1000 to 3000 vessels were disappointed because the head of the corporation, General Goethals, decided to substitute steel ships for the greater part of their program, and they voluntarily criticised the government's policy as expressed in the action of their chief. These captious gentlemen have been dismissed and General Goethals has found no difficulty in filling their places. Rear Admiral H. H. Rousseau replaces one of the mining engineers. He was an assistant of General Goethals in digging the canal and has been promoted by Congress for conspicuous ability. Admiral Rousseau will be manager of the government's ship-building corporation.

Undoubtedly one of the secrets of General Goethals' success in carrying out gigantic projects is to eliminate politics and petty controversies from among his subordinates. It has been a maxim with him that he who is not absolutely loyal to the pur-

pose in hand must separate himself from all connection with that purpose. The ship-building program now offers more hope that ships actually will be provided in maximum quantities in the quickest possible time than at any time in the past.

## THE NAVAL BOARD'S REPORT.

Secretary of the Navy Daniels has made public the report of the Helm commission on naval sites and naval stations. Whether the recommendations therein will be acted on by Congress during the present session is doubtful; in all probability they will be deferred until the beginning of the regular session next December. However, money already has been provided to initiate some of the projects, in order that they may be useful during the war.

The naval commission recommends an expenditure of \$7,455,000 for submarine bases and aviation sites on the Pacific Coast. It urges that North Island in San Diego bay be acquired as the main training station for aviation on the Pacific Coast. For its acquisition and development the commission proposes an expenditure of \$500,000. The report also recommends the expenditure of \$275,000 for the development of an operating submarine base at San Diego, on the existing naval reservation. Other recommendations of the commission include the acceptance of a tract of submerged land in the Los Angeles harbor offered by the city, and \$2,500,000 for the development of a submarine base and \$250,000 for an aviation operation base; an expenditure of \$190,000 for the development of a submarine base and \$540,000 for an aviation station at Mare Island; a submarine base and an aviation station at Puget Sound at a cost of \$1,800,000; the appropriation of \$800,000 for a submarine base and aviation station at Ediz Hook, Wash., and \$1,200,000 for a similar base and station near the mouth of the Columbia river.

It would appear from the above that the Helm commission has deferred discussion of the proposal for a new Pacific Coast naval station in San Francisco bay for a future report. It already has eliminated all other ports from consideration and is understood now to be collecting data to enable it to determine which of the four available sites in this bay are best suited for the station. Most of this information, which is now being prepared, is of a technical nature and relates to contour and character of the land where necessary to dredge a basin and of space, safety, transportation facilities for supplies and economic conditions likely to affect the life of the officials connected with the station. It is not to be presumed that the commission is waiting upon the efforts of the city clerk of San Francisco to arrange terms with the real estate speculators who have anticipated the selection of Hunter's Point. Undoubtedly the naval commission will have completed its findings by December next.

Major General Pershing, having arrived in England, will soon be in France in active command of the American forces fighting on French soil. He is a commander in whose courage, gallantry and ability American citizens have the greatest confidence and who American soldiers are proud to follow.

The Chico Enterprise tells how bakers have been forced to further economy: "Hicksburg bakers are now making doughnuts with one hole and have reduced the size of the hole. Present conditions has made it necessary," they say.

This new way of putting it has been adopted by the Tracy Press: "Dr. Powers escorted the stork to the home of Mr. and Mrs. James Lacava Friday evening and left a little June boy of seven and a half pounds."

The peace convention called by Socialists to convene at Stockholm has been put over. Evidently peace efforts do not thrive there. Henry Ford selected it as an arraignment whence to dispatch his dove, and we all remember now he failed of results.

It may be sometime before the normal school authorities are able to utilize the premises of the California building. The Governor has wired that if the federal government desires it for use in connection with the naval training base it can have it. The great building, it would seem, might be thus utilized.

Time has well nigh healed the breach, when a statue of General Lee can be erected at Gettysburg, where so many monuments commemorative of the heroes on the other side have been reared without protest or even comment.

## SPIRIT OF THE STATE PRESS

The State Railroad Commission has authorized the Byron-Bethany Irrigation Company to operate as a public utility in Contra Costa, Alameda and San Joaquin counties more than three years ago, as a mutual water corporation to furnish water to its stockholders who own land near Byron, Bethany and Tracy. The company, built about twenty-one miles of canals and ditches, installed machinery and is now ready to operate its plant, but has not yet delivered any water. It intends to serve about 14,000 acres at present and ultimately about 20,000 with water from Old River through Italian slough, lift it 45 feet into its main canal and by successive lifts into various portions of its systems.—Martinez Standard.

May be you haven't observed that Alton is quite a musical town for its size. It has three bands—a municipal men's band, a boy's band and a ladies' band.—Richmond Terminal.

Tyrrell January, one of the best-known young men of the county and who is now in the navy, has been appointed chief officer on the steamer Konig Wilhelm II, one of the steamers confiscated from Germany by the United States, and which is in the Atlantic service.—Martinez Standard.

In the spring of 1858 the leading Creole citizens determined to erect a structure for the housing and production of opera. The decision was made in March; in April the architectural plans were accepted, contracts were awarded and building was begun. It may serve to take some of the conceit out of New York, Chicago and some other cities of the North, to learn that more than a half century ago, in New Orleans, work upon this structure, to cost \$118,000, was carried on day and night until completed, and that the first performance was given in the house less than eight months after the architect's designs were approved. Before the third season rolled around the Civil War had the nation in its grasp, and for five long and dreary years the French Opera House was dark. Not until the middle '70s, after the "White League" riots, did normal conditions permanently return; and since then, until two years ago, the French Opera House has been open every season, and with average success. Not always has it been given over to opera, however, in the last decade or so.

During the last few years earnest attempts have been made to restore the former prestige and popularity of the French Opera House, but without avail. Changed conditions in New Orleans have rendered such a revival impossible. The city has become, with the passing years, more American and less French. There was talk, until recently, of demolishing the French Opera House. Now, however, that the Louisiana Historical Society has taken the matter in hand, there is a fair prospect that this relic of Creole prosperity and culture will be preserved for future generations.

Undoubtedly one of the secrets of General Goethals' success in carrying out gigantic projects is to eliminate politics and petty controversies from among his subordinates. It has been a maxim with him that he who is not absolutely loyal to the pur-

## NOTES AND COMMENT

Chinese girls may be different. Here's one who attempted suicide rather than marry a man who was rich. The objection to him, as given out, is that he is also old. Such qualifications in other circles have been known to balance, at least.

They have a summary way in the Argentine of stopping speculation in food products. The government seized all the sugar and bought some more, leaving a lot of enterprising patriots who had gone short on the market in a dangling attitude.

One of the greatest patriots who has emerged on this momentous occasion is Albert Latimer. He is a chef of high degree, capable of concocting rare dishes for epicures, and commanding a princely salary therefor; but he forgot that, to go and cook for soldiers. It is difficult to think of greater patriotism than this.

According to the San Diego Union the feeling between the two largest southern California towns is as bad as this: "San Diegans who go to Los Angeles are warned against listening to the strains of any itinerant violin player that they may run across. At least one street musician has an accomplice who goes about in the crowd while they are listening to the dulcet strains of the violin and relieves listeners of their pocketbooks."

La Mesa Scout tells how an official dolls up: "Councilman Stokes is again in the limelight. It isn't a hat this time, but a spic and span, all-wool, latest model, brand-new suit. Some class to that suit, too."

From San Jose comes hunch as to where the money is cached. A newsboy there has bought a \$500 Liberty bond. Strange this lead has not been worked before.

They are engaged in raising \$100,000 in Los Angeles to bring Billy Sunday and save the city. There will be general surprise that it is as bad as that.

The Chico Enterprise tells how bakers have been forced to further economy: "Hicksburg bakers are now making doughnuts with one hole and have reduced the size of the hole. Present conditions has made it necessary," they say.

## Oakland Red Cross to Do Share in Aiding Big Drive

**Lyman Pierce on Way to Raise \$15,000,000 of Needed \$100,000,000 in the West**

The Oakland Chapter of the American Red Cross will take up next week the appointment of committees which are to work in co-operation with the War Council of the American Red Cross in the national "drive," which intended to net the humane angle of the war work not less than \$100,000,000, in the interval between June 18 and 25.

The details of the tremendous campaign are being worked out by Lyman Pierce, western executive secretary of the Red Cross finance committee, who is speeding westward on a fast train with the responsibility of raising \$15,000,000 west of the Mississippi. At the different stops en route he is wiring instructions and receiving reports from the states in his district. Within the short space of ten days, a fighting organization covering more than twenty states has been completed under his direction.

### FIRST OBLIGATION.

The specific purpose to which the Red Cross expects to donate the \$100,000,000 it has asked the American people to contribute are enumerated in a statement made public today by Henry P. Davison, chairman of the War Council of the Red Cross.

President Wilson has set aside the week of June 18 to 25 as Red Cross week, and Davison hopes to obtain contributions for the full amount of the \$100,000,000 within that period.

"Our first obligation is to render such service as comes within the province of the Red Cross to our soldiers and sailors at home and abroad," the statement says. "Then our endeavor will be to supplement the efforts of our allies in caring for their sick and wounded."

"We shall help provide the bare necessities of life to the homeless devastated France and to aid them to rehabilitate themselves.

ed by the board and the votes by which they were passed:

### ORDER PROPERTY.

"Resolved, That this Board does hereby order and direct the County Attorney and Sheriff to cause to require the acquisition, construction and completion by the County of Alameda of a new County Hospital in the City of Oakland in said county, and that the property hereinafter referred to as the hospital site, is necessary therefor, and for yards and grounds surrounding the same."

"Resolved, That property hereinbefore referred to is particularly bounded and described as follows:

"All that lot of land situated in the City of Oakland, County of Alameda, State of California, bounded and described as follows, to-wit:

"Beginning at the point of intersection of 14th Avenue and the eastern line of Vallecito Place, and running thence easterly along said line of 14th Avenue seven hundred and twenty (720) feet to a tangent point on the left; then running thence easterly along said line with a radius of six hundred and two (602) feet, four hundred and eight (408) feet to the southern line of Lynn, said curve hereby being made the northwestern end of said lot; thence running thence easterly along said line of Lynn with the eastern line of Vallecito Place, extending northerly; and thence southerly along said line of Vallecito Place, one hundred and eighty-four (184) feet, three (3) inches to the point of beginning."

"Being a portion of lands shown on map entitled "Map No. 2 of portion of the County of Alameda," filed May 29, 1890, in the office of the County Recorder of the said County of Alameda."

Following are the resolutions adopt-

ed by the board and the votes by which they were passed:

### ORDER PROPERTY.

"Resolved, That this Board does hereby order and direct the County Attorney and Sheriff to cause to require the acquisition, construction and completion by the County of Alameda of a new County Hospital in the City of Oakland in said county, and that the property hereinafter referred to as the hospital site, is necessary therefor, and for yards and grounds surrounding the same."

"Resolved, That property hereinbefore referred to is particularly bounded and described as follows:

"All that lot of land situated in the City of Oakland, County of Alameda, State of California, bounded and described as follows, to-wit:

"Beginning at the point of intersection of 14th Avenue and the eastern line of Vallecito Place, and running thence easterly along said line of Lynn with the eastern line of Vallecito Place, extending northerly; and thence southerly along said line of Vallecito Place, one hundred and eighty-four (184) feet, three (3) inches to the point of beginning."

"Being a portion of lands shown on map entitled "Map No. 2 of portion of the County of Alameda," filed May 29, 1890, in the office of the County Recorder of the said County of Alameda."

The resolution was adopted by the following vote:

### Ayes—Supervisors Mullins, Foss, Heyer, Kelley, and Supervisor Murphy.

Noes—None.

Resolved, That the District Attorney and he hereby is authorized and directed to bring an action in condemnation in the Superior Court of this county against the Berkeley Baptist Divinity School (formerly California College), a corporation, and any and all persons, officer or necessary parties to said action to condemn for and on behalf of the city that certain real property hereinafter described, and all rights of said school and all of them, in and in order that the said county may secure a fee simple title to said property free and clear of all encumbrances, for a county hospital and yards and grounds surrounding the same.

"Said property is described as follows:

"All that lot of land situated in the City of Oakland, County of Alameda, State of California, bounded and de-

scribed as follows, to-wit:

"Beginning at the point of intersection of 14th Avenue and the eastern line of Vallecito Place, and running thence easterly along said line of Lynn with the eastern line of Vallecito Place, extending northerly; and thence southerly along said line of Vallecito Place, one hundred and eighty-four (184) feet, three (3) inches to the point of beginning."

"Being a portion of lands shown on map entitled "Map No. 2 of portion of the County of Alameda," filed May 29, 1890, in the office of the County Recorder of the said County of Alameda."

The resolution was adopted by the following vote:

### Ayes—Supervisors Foss, Heyer, Kelley, Mullins, and Supervisor Murphy.

Noes—None.

### LANE'S SON IS ILL

WASHINGTON, June 11.—Franklin K. Lane Jr., son of Secretary of the Interior Lane, is seriously ill at Newport News with blood poisoning resulting from an infected heel. Young Lane is a first lieutenant in the aviation corps. Secretary Lane has been called to Newport News to the bedside of his son.

### FIRE IN SOUTH

LOS ANGELES, June 11.—Fire in a group of buildings at Seventh and Hill streets early today destroyed the warehouse of the Alfalfa Feed and Mill Company, damaged the packing plant of the Frazier & Sons Company and threatened a number of other buildings adjoining. Damage is estimated at \$25,000.

### WHAT IS DOING TONIGHT

Pittsburgh Social and Improvement Club meets, 727 East Fourteenth street. Owls give shirtwaist dance, Masonic Temple, Berkeley.

Western Caterers give dance, Hotel Oakland.

Woodmen of the World hold patriotic night, Pacific building, Illinois Society meets, Starr King Hall, Orpheum—Nobody Home.

Franklin—The Barrier, Idora Park—Inland beach.

Piedmont Baths—Ocean water swimming.

Neptune Beach—Surf swimming.

### WHAT IS DOING TOMORROW

## RAISE IN RATES MEANS BIG SUM

An increase of not less than \$100,000 annually will be added to the freight rates of the Oakland industrial business according to Traffic Manager L. R. Bishop of the Oakland Chamber of Commerce, who will represent local interests in the intra-state hearing before the State Railroad Commission in San Francisco on June 21 on increased charges.

The hearing is being held at the request of various California railroads, who have asked for an increase of 15 per cent in their general freight schedules. The railroads are already presenting evidence to the hearing now pending before the Interstate Commerce Commission, for a similar increase in intrastate business. Information received from Washington is to the effect that the Federal commission probably will refuse the increase.

## SLEPT, SNORED DURING BURGLAR CHASE IN HOME

While her husband snored oblivious in an adjoining room, Mrs. E. C. Hoosen of 2534 Sixty-sixth avenue leaned over the family wash tub at 2 o'clock this morning. There was a noise in the basement, she became alarmed, rushed to the telephone and summoned a posse of police from the Melrose station. The police arrived, met Mrs. Hoosen on the front porch and were told that a man had just run across the street, disappearing between two adjoining houses. The police started pursuit, aroused the neighbors, found no trace of the supposed burglar and returned to the Melrose home for further investigation of the situation. The services were under the joint auspices of the Master Mariners' Association and the Odd Fellows and were followed by incineration.

In compliance with his oft-expressed wish, the captain's ashes will be given to the sea by his fellow mariner and friend Captain Peter Johnson of the Maui. Years ago Captain Johnson's wife died at sea while accompanying the captain on a voyage between San Francisco and Honolulu. Mrs. Johnson was buried at sea by her husband, and because of this ocean burial the captain desired that his body be cremated and his ashes given to the ocean. The ashes will be carried to mid-ocean by the commander of the Maui. Near the spot where the sea burial of Mrs. Johnson took place the ashes will be cast to the waves.

Captain Johnson is survived by two children, a son and daughter. The son, Mr. Johnson, lives at Seattle, and the daughter, Mrs. Cameron, in Oakland. He was interested as part owner in several Pacific Coast vessels and also owned property in East Oakland. He was well known among the old-time shipping men. His health had been failing for the last year or more, but he was not considered to be in a serious condition until a few hours before his death, when he suddenly collapsed. He rallied after the first serious spell of sickness, but quickly failed again and died a few hours after he awoke to his bed. He was a resident of Oakland for thirty-six years. No Mail Orders

## MARINER'S ASHES TO BE CAST IN SEA

The funeral of Captain C. A. Johnson, retired master mariner, who died at the home of his daughter, Mrs. Gertrude Cameron, 1429 Ninth avenue, Friday, was held this afternoon from the Taylor undertaking parlors. The services were under the joint auspices of the Master Mariners' Association and the Odd Fellows and were followed by incineration.

In compliance with his oft-expressed wish, the captain's ashes will be given to the sea by his fellow mariner and friend Captain Peter Johnson of the Maui. Years ago Captain Johnson's wife died at sea while accompanying the captain on a voyage between San Francisco and Honolulu.

Mrs. Johnson was buried at sea by her husband, and because of this ocean burial the captain desired that his body be cremated and his ashes given to the ocean. The ashes will be carried to mid-ocean by the commander of the Maui. Near the spot where the sea burial of Mrs. Johnson took place the ashes will be cast to the waves.

Captain Johnson is survived by two children, a son and daughter. The son, Mr. Johnson, lives at Seattle, and the daughter, Mrs. Cameron, in Oakland. He was interested as part owner in several Pacific Coast vessels and also owned property in East Oakland. He was well known among the old-time shipping men. His health had been failing for the last year or more, but he was not considered to be in a serious condition until a few hours before his death, when he suddenly collapsed. He rallied after the first serious spell of sickness, but quickly failed again and died a few hours after he awoke to his bed. He was a resident of Oakland for thirty-six years.

Now we are compelled to prepare our Red Cross work for ourselves. It has not been needed up to the present, but the time is rapidly approaching when it will be needed.

## EVERY DOLLAR TO AID RED CROSS

Oakland must equip the Red Cross hospital unit for which the University of California is going to furnish the men.

You may not be able to go with that unit or with any other, but you can put one dollar toward that equipment and have twice that amount of enjoyment by attending the superb military spectacle and ball that is to be given at the Oakland Municipal Auditorium on Friday evening next.

The rest of your entire dollar will go toward that hospital equipment and the Red Cross work is that the members of Ahmies Temple of the Mystic Shrine are paying the entire expenses of that event, leaving the gross proceeds to go to the Red Cross work.

**BIG TABLEAUX PLANNED.**

The reason that everyone will get that much of pleasure is that one of the best and most stirring of military tableaux is being arranged for the first part of the evening and the rest of the evening will be given over to the dancing.

Everybody is going to be there to show their appreciation of the great situation that confronts the United States by contributing liberally to the Red Cross work—a work that has made the United States known and loved the world over. Up to the present the United States has done its wonderful Red Cross work for other nations. The badge of United States Red Cross work has been carried to Belgium, to Turkey, to Serbia, to France and to most of the countries of the world. Those who do not know of the great institution of freedom in this country know that the work of the United States Red Cross means mercy, help and love.

Now we are compelled to prepare our Red Cross work for ourselves. It has not been needed up to the present, but the time is rapidly approaching when it will be needed.

**PREPARED TO HELP?**

Are we prepared to help our own? Oakland is still behind in its allotment of money for the Red Cross work.

Oakland must not stay behind. One way to give all your contribution to this work and still get more than an equivalent in pleasure and education is to attend the patriotic review and ball on Friday evening next.

Don't forget—every dollar goes in its entirety to the Red Cross work.

There will be more than a dollar's worth of real pleasure aside from the pleasure derived from a donation to the great cause of the Red Cross.

Oakland should show its real appreciation of the Red Cross work and this is the time to do it.

**LODGE BEING SUED**

The supreme council of the Society of the Holy Ghost, a Portuguese religious and fraternal organization, was made defendant today in a suit for \$500 filed by M. J. Lamb, M. I. Muree and F. G. Costa as trustees of Accorin Grove No. 86, United Order of Drunken Knights plaintiffs, deeming that the defendants have failed to pay \$500 which was a portion of the \$15,000 insurance money of Joao Machado Farundes, who died 1915. According to the complaint, Farundes first stipulated that the \$500 should be paid to Conselho Brio los Catholicos No. 3 of Freeport for his funeral expenses and masses for the repose of his soul. Later the policy was changed and the Druids were made the beneficiaries of that amount.

**BARRY IS FREED**

LEAVENWORTH, Kan., June 11.—John H. Barry, St. Louis labor leader serving a term in the federal prison for participation in the iron workers dynamiting activities, was released today. He was met at the prison by a number of St. Louis friends.

**CONVENTION OPENED.**

NEW HAVEN, Conn., June 11.—The annual convention of the United Brotherhood of Railroad Signal Men of America opened at the Hotel Royal today. Practically every railroad in the country is represented, the 500 or more delegates coming from every section of the United States.

**GOING AWAY?**

No extra charge to take The TRIBUNE with you. Phone Lakeside 6000. Circulation Dept.

**Has a Good Opinion of Chamberlain's Tablets.**

"Chamberlain's Tablets are a wonder. I never sold anything that beat them," writes E. T. Tressler, Richmond, Ky.

When troubled with indigestion or constipation give them a trial. For sale by Osgood Bros. Drug Stores—Advertiser.

The steamer Daisy Freeman, in the creek for three days, has left for Calumet River. The steamer Marshfield has left Tibbits, where it was inspected, and is on the way to Eureka. The Tamalpais is another steamer to depart. She is off for Grays Harbor.

**HISTORIC TIGER GIVES UP MONEY.**

There is more than one way to buck the Tiger, as George Penner has found out. Penner paid \$55 for the historic old sidewheel tug just as she was on the bottom at McWest Point. He has already received \$100 and expects to receive \$200 more. The old hull is now at Captain H. P. Morrison's yards at South San Francisco, and is gradually being put into shape to be in good shape. The boiler was sold as copper junk at 30 cents a pound and brought the \$240.

A twin screw, shallow draft boat to handle catches in the Alaska creeks from the small boats is an idea being worked out by William Cryder. The vessel will be 70x18 feet and with a draft of five feet will be fully loaded. The two 10-horse power Standard engine will drive it.

Two previous reports gave the dividends paid by several Dutch steamship companies during the course of the several preceding years. Additional companies have since made statements, and the dividends paid for 1916 were as follows: Rotterdam Lloyd, 10 per cent compared with 12 per cent; N. V. Nederlandsche Lloyd, 25 per cent compared with 20 per cent; Triton, 100 per cent compared with 40 per cent; Van Vlucht, Goedhart & Co., 100 per cent against 100 per cent for 1915.

**SUN, MOON, TIDE**

United States Coast and Geodetic Survey—Table shows times and heights of high and low water at Port Folio, entrance to San Francisco Bay. For City front (Mission street pier) add 25 minutes. (Standard time.)

Monday, June 11.

Sunrise . . . . . 4:46 Sun sets . . . . . 7:33

Moons first quarter . . . . . June 11, at 10:26 p. m.

New moon . . . . . June 18, at 4:52 p. m.

Jun 11 to Jun 17.

Day Time and Height of High and Low Water of Mo. . . . .

1 . . . . . 11:00 1:15 1:20 2:15 2:30 2:45 3:00

2 . . . . . 5:00 7:15 8:30 9:45 10:00 10:15 10:30

6 . . . . . 5:28 6:10 6:25 6:41 6:56 7:11 7:26

7 . . . . . 7:41 8:16 8:31 8:46 8:56 9:11 9:26

Note.—In the above tabulations of the tides the daily tides are given in the order of their occurrence, corresponding with the order of the tides occurring in the coast survey chart sounding. The numbers are given additive to the chart depths, unless preceded by a minus sign, in which case the numbers are subtracted from the depths given on the chart.

## Deadly Heat Ray Being Developed

Radio Activity May Figure in War

Created in a tiny laboratory in the foothills of Los Angeles, Dr. A. C. Cowperthwaite, eminent radio activity expert, is mightily engrossed in the task of developing the Gamma or third ray of radium, the most remarkable substance known to science into the deadly "heat ray" of H. G. Wells' fiction "Drama." The perfection of this work, if accomplished, will place in the hands of the United States Government a weapon of unprecedented importance in the history of the world.

The burning action of radium is well known in all quarters of the globe. Its rays are of three types and are classified as the Alpha, Beta and Gamma rays, the last named being the most powerful. Radium bearing ores in minute crystals no bigger than a rice grain has to be carried in heavy metal containers of brass and bronze from one to two tons in weight to prevent injury to persons in the vicinity. A thin crystal pointed at an old-fashioned oil-and-lead microscope at a distance of 100 feet or more, will cause the apparatus to instantly discharge its electrical charge, so powerful is the radium action.

It was from this circumstance that Dr. Cowperthwaite, who has made a study of radium, evolved the possibility of turning radium into a war weapon of almost infinite destructive power. His plan is to secure a battery of radium tubes, from 50 to 100 or more, and focus their rays or emanations on a parabolic mirror. With the mirror or some similar

device he could then throw a beam of concentrate invisible rays to a considerable distance. It is thought that a powerful burning action of the rays could be produced over a distance of perhaps several miles. The atomic velocity of the atoms, the control of deflection and their penetrating power, it is thought, could be controlled by prisms.

Dr. Cowperthwaite is keeping the results of his experiments secret until such time as he is ready to make a demonstration of the wonderful accomplishments of the Gamma rays. Such a ray, developed to its final stages, would outdo the finest piece of modern field artillery in destructive possibilities, and the scientist is taking no chances of the results of his experiments falling into the hands of the enemy.

## MRS. O'HARE TO LECTURE HERE

Kate Richards O'Hare, editor of "The Social Revolution," published in St. Louis, will lecture at Hamilton Hall, Thirteenth and Jefferson streets, Wednesday night at 8 o'clock.

## ACHES AND PAINS

Don't neglect a pain anywhere, but find out what causes it and conquer the cause. A pain in the kidney regions may put you on your back tomorrow. Don't blame the weather for swelling feet. Bright's Disease. A pain in the stomach may be the first symptom of appendicitis. A break in a joint may be the forerunner of rheumatism. Chronic headaches more than like to be caused by tension. The best way is to keep in good condition by taking GOLD MEDAL

HAZELNUT OIL Capsules. Sold in double strength, 100 capsules, one size. Many recommend it if they do not help you. Beware of substitutes. The only pure imported Hazelnut Oil Capsules are the GOLD MEDAL.

## Whitthorne & Swan

SUCCESSORS TO

OAKLAND STORE

**Hale's** OAKLAND STORE

GOOD GOODS

Oakland's Store That Undersells

## SILK WAIST SALE TUESDAY

Samples and odds and ends from our own stock. All new styles—plain colors and sport effects; crepe de chine and Georgette. Values are \$3.95 to \$5.00. Special for this sale at

\$2.95

## Clearance Of All Hat Shapes

Small, medium and large; black, white and colors.

Values \$1.95 to \$3.95. All cut to, each

\$1.00

**INFANTS' FIBER SILK HOSE** White, fine rib, little foot. Sizes 4 to 6½. Special at

25c

**HONEYCOMB SPREADS** Heavy quality. Marseilles patterns. Special at
